Dear parents and carers,

Autumn is the time of year when we see the onset of coughs, colds and bouts of sickness and it is often semi closed environments such as schools and hospitals that can be most affected in terms of spreading. It is paramount that we are following all rules of good hygiene. Please be assured that in school we have a high profile of washing hands.

Further to this, we always follow strict guidelines for minimising the spread of sickness when it occurs with immediate action as recommended by Public Health agencies. I have attached some information overleaf, from the Public Health England department to give you some advice if your child becomes unwell from sickness at home.

Please do not hesitate to contact the school if you have any questions or would like any further information.

Thankfully the coming weekend will help to give time for any sickness to dissipate and we will all be back to full steam ahead on Monday. I wish you all a good weekend.

Many thanks for your continued support.

Yours faithfully,

Mrs Peters.
(Headteacher)
