

Welcome to the MPJ NEWSLETTER

OCTOBER 2024

Welcome to the first issue of the new academic year! We hope you have now settled into your new classes.

So far this term year 3, 4 and 6 have all been on a fantastic trip. Currently, our trip display, which is in the corridor by the library, is being updated. Soon, it will have pictures from our wonderful trips alongside information about what we have learned.

Keep an eye out to see what year 6 did at the RAF museum and what year 4 did at Tatton Park!

WOW WORD OF THE MONTH

EGREGIOUS: outstandingly bad, shocking.

The new head teacher's abuse of power was egregious! He even made the teachers do tasks outside of school.

ECO COUNCIL'S TOP TIPS

Tap still running? Turn it off!

Every day, millions of people waste water by leaving the tap on when brushing teeth or filling up bottles.

SUPER SCIENCE SECTION

What is the difference between Biology, Physics and Chemistry?

Biology – focuses on life processes, organisms and how they grow, live and interact.

Chemistry – Focuses on the structure, properties and changes of matter.

Physics – Focuses on topics like motion, energy and forces.
